Wasatch County Organizes Health Dept. 1968

A meeting was held Friday, September 3, 1968 in the Court House for the purpose of organizing the first Wasatch County Board of Health.

Members of the board consist of Dr. R. Raymond Green, Executive Secretary and Health Officer; Dr. Larry B. Duke, Chairman; Mr. Russell Wall, Commissioner; Dr. Ferrin D. Van Wagoner, Mrs. Georgia Dawn Clegg, Mr. Douglas Edwards, and Mrs. Emily Zenger, Public Health Nurse.

Consultants from the State Board of Health also present were: Dr. Isaacson, director in charge of local health agencies; Mrs. Betty Streeter, Chief of Nursing Services; Miss Echoemae Anderson, Regional Nursing Consultant.

Functions and duties of a Board of Health and details of organization were discussed and acted upon.

Public health activities and problems in Wasatch County will be featured in the next meeting to be held Wednesday, October 30.

Tuberculin Test To Be Given Local Students

The Wasatch County Board of Health and the Wasatch School District in cooperation with the State Dept. of Health will conduct a Tuberculosis skin testing program on Monday, October 14th for kindergarten, eighth grade students, school personnel and others as indicated.

The purpose of the program is to detect the tuberculosis infection in our community. The test is a simple, harmless test which reveals whether or not you have been exposed to such infections. Consent forms will be sent home with students, and we urge parents to sign and return them promptly with your child to his teacher.
